RE: Application N^o 1280
Project Description: Standby diesel engine - Mammoth Lakes Hi School, 1601 Meridian Blvd.
Mammoth Lakes, CA 93546

Dear Mr. Menta:

On July 12, 2006 your Authority to Construct application for the above referenced project was received by the Air Pollution Control District and has been reviewed for completeness.

Pursuant to District Rule 205 Action on Applications and based on our preliminary review, your application appears to be complete. However, during the processing of this application, the District may request additional information to clarify, correct or otherwise supplement the information on file.

In addition, please be aware that since your project is located within 1000 feet of the outer boundary of a school, the District under the provisions of Cal. H&S Code § 42301.6 must notify the public and parents of each student attending Mammoth Lakes High School. Furthermore, Verizon Wireless is responsible for reimbursing the District for all additional charges we incur in complying with this H&S code section.

Thank you for your cooperation. Should you have any questions, please telephone Larry Cameron at (760) 872-8211.

Signature

Duane Ono
Deputy Air Pollution
Control Officer

cc: Mr. Shawn Stacey, Verizon Wireless; Mr. Ansel Young, Sitecom, Inc.
